

How can I create an offline installation?

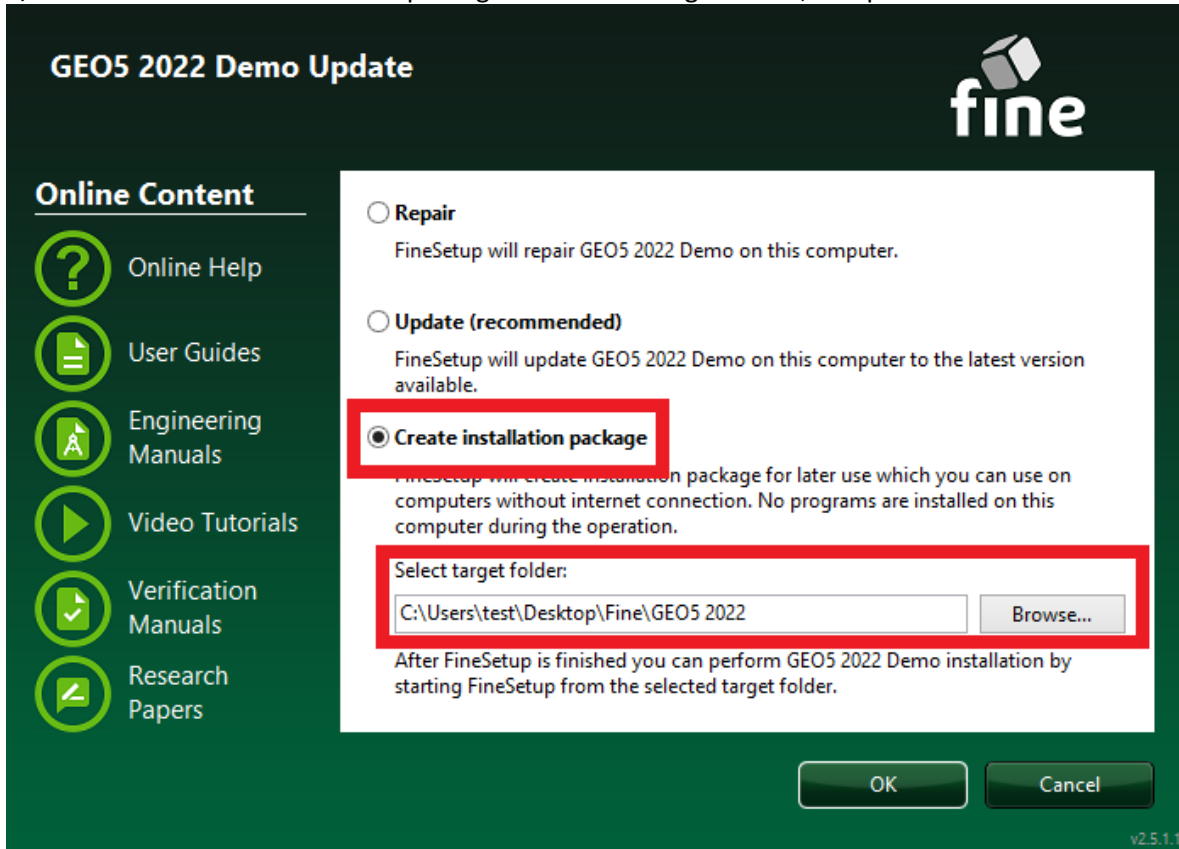

You can create an offline installation package yourself, e.g. for later use or for use on computers without internet connection:

1/ Run the installer ([Personalized Setup](#)) downloaded from our website

2/ In the first window, click on "Advanced"

3/ Choose "Create an installation package" and select target folder, and press "OK" button

4/ Click on the „Next“ button to continue

GEO5 2022 Demo Setup
C:\Users\test\Desktop\Fine\GEO5 2022

Online Content

- Online Help
- User Guides
- Engineering Manuals
- Video Tutorials
- Verification Manuals
- Research Papers

Welcome to the GEO5 2022 Demo Package Creation Wizard

The Package Creation Wizard will create GEO5 2022 Demo installation package for later use. Click Next to continue or Cancel to exit the Package Creation Wizard.

Note: Some files are not available locally. Online update is required to proceed.

Automatically check for updates and download the latest version

Advanced Back **Next** Cancel

v2.5.1.1

5/ Select the programs you want to include in the offline installation

6/ Your offline installation package was created and located in selected target folder

The screenshot shows the 'GEOS 2022 Demo Setup' wizard completion screen. The title bar indicates the path 'C:\Users\test\Desktop\Fine\GEOS 2022'. The 'fine' logo is in the top right. On the left, there is a sidebar titled 'Online Content' with icons for 'Online Help', 'User Guides', 'Engineering Manuals', 'Video Tutorials', 'Verification Manuals', and 'Research Papers'. The main content area displays the message: 'Completed the GEOS 2022 Demo Package Creation Wizard'. Below this, it says 'Click the Finish button to exit the Package Creation Wizard.' and 'You can start GEOS 2022 Demo installation by clicking on the FineSetup icon in the folder:'. The folder path 'C:\Users\test\Desktop\Fine\GEOS 2022' is highlighted with a red box. At the bottom, there are 'Back' and 'Finish' buttons, with the 'Finish' button also highlighted by a red box. The version number 'v2.5.1.1' is visible in the bottom right corner.
